

Open Top Cylindrical Tank

Frontier cylindrical open top container, also known as Coiler cans in the textile industry are one piece moulded and used in the dyeing and processing industry. Many denim manufacturing units will only insist on a Frontier Coiler can for their manufacturing.

These cylindrical open top containers are made from 100% high impact grade polyethylene (PP) or Cross link depending upon the customers requirement. and are virtually maintenance free. Also used in the electroplating, galvanising and powder coating industry.
